OCCP- Office of Community & Comprehensive Planning
CRA – Community Redevelopment Agency
Eng – Engineering
CS – Construction Services

Miscellaneous

BC – Broward County
BCPA – Broward County Property Appraisers
FEMA – Federal Emergency Management Agency

Section 1: FPLSHAPE (Copyrighted ArcView Shape files)

The following table is a list of GIS layers that Florida Power and Light (FPL) provided for the City of Fort Lauderdale. All of these layers are in the Florida Stateplane, East Zone, NAD83 coordinate system. They are protected by copyright laws. City employees are allowed to use this data for any City related work. Vendors and Outside Consultants are not allowed access to these data without prior approval from FPL and the City-wide GIS Coordinator. Providing these data in digital form to anyone who is not a City of Fort Lauderdale employee would severely violate the City of Fort Lauderdale's license agreement with Florida Power and Light and can result in severe repercussions for the individual providing the data as well as for the City of Fort Lauderdale.

Paper map products that in display these data can be provided freely to the public but they must contain reference to the following disclaimer in a clear and unobstructed area of the map:

This map product contains parcel data governed by the following:

Copyright 1993-1998 FPL

No express or implied warranties including, but not limited to the implied warranties of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE are made. The materials contained herein are provided 'as is' and may contain inaccuracies and User is warned to utilize the materials herein at User's own risk and to verify the materials' accuracy independently and assumes the risk of any and all loss.

FILE	TOPOLOGY	DESCRIPTION	Maintained By	Last Update	Maintenance Schedule
Fplwater.shp	Polygons	Planimetric theme showing bodies of Water. This theme was derived from aerial photography shot in 1995. It is more spatially accurate than the cartographic theme WATER in the SHAPE directory.	ASD/ITD	2001	As Requested
Largebuild.shp	Polygons	Planimetric theme showing Large Building footprints derived from 1995 aerial photography. It contains an attribute that provides height information for some buildings.	ASD/ITD	12/2002	As Requested
Lotblock.shp	Polygons	Lot and Block information as platted. This theme does not show lot ownership (parcels). The attribute information includes the LOT and Block Number.	ASD/ITD	1993/1995	As Requested

FILE	TOPOLOGY	DESCRIPTION	Maintained By	Last Update	Maintenance Schedule
Pavement.shp	Lines	Planimetric theme showing the edge of pavement derived from 1995 aerial photography.	ASD/ITD	1995	As Requested
Pavementcl.shp	Lines	The Center Line of the Pavement derived from calculating the midpoint from the "Pavement" theme.	ASD/ITD	1995	As Requested
Propaddress.shp	Points	A point theme to be used in ARCVIEW for address matching to the parcel centroid in the City of Fort Lauderdale. Addresses in a condominium association are matched to the centroid of the common area.	ASD/ITD	2003	As Requested
Property.shp	Polygons	Property Ownership (parcels). The attribute information contains Owner name, parcel address and owner's mailing address.	ASD/ITD	2003	Monthly
Propparcel.shp	Points	A theme used to Geocode 10-digit parcel_id (folio numbers).	ASD/ITD	2003	As Requested
PropPoint.shp	Points	A theme containing multiple points per parcel showing different business addresses in the same parcel and all condo units in a condominium association. The attribute information contains Owner name, parcel address and Owner's mailing address.	ASD/ITD	2003	As Requested
Railroads.shp	Lines	Planimetric Theme showing railroad lines, including spurs. This theme was derived from 1995 aerial photography.	ASD/ITD	1993/1995	As Requested
Smallbuild.shp	Points	Planimetric Theme showing small building location.	ASD/ITD	1993/1995	As Requested
Subdivision.shp	Polygons	Subdivision Plats. The attribute information includes the Subdivision Name and the Plat Book and Page number.	ASD/ITD	1993/1995	As Requested

Section 2: Shape (ArcView Shape files)

The following table is a list of GIS layers that have been compiled from various sources. All of these layers are in the Florida East State Plane, NAD83 coordinate system. The majority of the Shape files contained in this directory are in the public domain and, therefore, can be used by and freely distributed to the public. Those that require approval from the City's GIS Coordinator are noted with an asterisk.

FILE	SOURCE	TOPO- LOGY	DESCRIPTION	Maintained By	Last Update	Maintenance Schedule
Areamask.shp	Planning	Polygons	Masks out the areas outside the general area of Fort Lauderdale, Wilton Manors and Oakland Park	ASD/ITD	9/2000	As Needed
Bankline.shp	PS/Eng	Lines	Canal bank lines in the City of Fort Lauderdale	PS/Eng	1997	As Requested
Bars.shp	Broward	Points	Locations of property with the Broward County Land Use Code of Bars. The layer was derived from the parcel layer then formed into a center point for each parcel having the bars landuse code.	N/A-in process of trying to find better source.	3/7/2001	N/A

Section 3: Aerial Images (TIFF Directory)

Contains archives of digital aerial photography for the entire area of the City and areas west of the CITY out to SR441. For ArcView users, Image Catalogs can be used to more easily view this data. These Image Catalogs can be found in the INFO directory at this Location.

Aerials: These are the current aerials in the GIS Library. In future updates the current aerial will always be Aerials. This will allow GIS projects to have the updated aerial without having to add it to existing projects.

Aerials1998: These photographs were shot on February 28, 1998. This is grayscale photography developed as an inter-local effort between the City of Fort Lauderdale and the Broward County Property Appraiser's Office. It is 1-foot resolution images that have been ortho-rectified and have a positional accuracy of 2 feet.

Aerials2002: These photographs were shot in January, 2002. The aerials are three-band color photography developed as an inter-local effort between the City of Fort Lauderdale and the Broward County Property Appraiser's Office. It is 1-foot resolution images that have been ortho-rectified and have a positional accuracy of 2 feet.

Info: The Info directory consists of image catalogs for the above aerial directories. An image catalog is a single theme comprised of all the images provided in the corresponding years directory. This allows a user to view the aerial images as a whole with one theme instead of adding each image as one theme each.

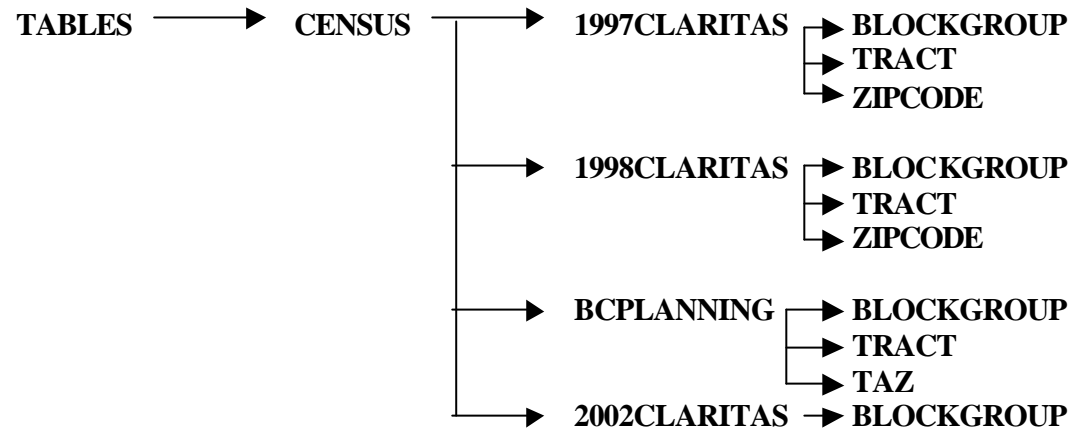

Mr. Sidd Images: Mr. Sidd images are compressed aerial images. In order to view these images you must have Arcview version 3.2 and have the MrSidd extension activated. Available years are 2000 (county_00.sid) and 2002 (ftl_aerial.sid). In future updates the current aerial will always be ftl_aerial.sid. This will allow GIS projects to have the updated aerial without having to add it to existing projects.

Section 4: Annotations (ANNOS Directory)

The Annotations directory includes 2 ARC/INFO coverages to be used with ArcView for placing text in maps. Shape files cannot manipulate annotation files, therefore, these layers are being maintained as ARC/INFO coverages. CITYANNO and BCANNO have a predefined text size; therefore, the user cannot change the size of the text from ArcView. Each one of these has several layers (subclasses) of annotations describe as follows.

CITYANNO	ANNO.Associations	Description of Homeowner Associations
	ANNO.Block	Block Numbers
	ANNO.Cityno	City Numbers (to reference Plats)
	ANNO.Lot	Lot Numbers
	ANNO.Majorstreet	Major (Principal) Streets
	ANNO.Street	Street Names (default small size)
	ANNO.Streetmd	Street Names (medium size)
	ANNO.Streetlg	Street Names (large size)
BCANNO	ANNO.Censustracts	Census Tract Numbers
	ANNO.Citynames (1 & 2)	Two styles of names for cities in Broward County.
	ANNO.Cityparks	City park names for all of Broward County.
	ANNO.Colleges	Names of colleges.
	ANNO.Commdistricts	Commission District numbers for Broward Comm.
	ANNO.Countyparks	County Park names for all of Broward County.
	ANNO.Libraries	Broward County Public Library names
	ANNO.Majorstreets (1-6)	Six styles of major streets names.
	ANNO.Schools	Names of Schools.
	ANNO.Stateparks	Names of state parks
	ANNO.Streetnames	Street Names.
	ANNO.SuperTAZ	Numeration for Super TAZ (Groupings of TAZ)
	ANNO.TAZ	Numeration for Traffic Analysis Zones (TAZ)
	ANNO.Zipcodes	Zip Codes.

Section 5: Lookup Tables (TABLES Directory)

This directory contains tables that can be linked with GIS Shape Files to enhance query tools. Tables included are:

FILE	Source	DESCRIPTION	Maintained By	Last Update	Maintenance Schedule
Address.dbf			ASD/ITD	5/7/99	As Requested
Alias.dbf				7/14/99	
Assess.dbf				12/13/00	
Bldg_Height_Lookup.dbf	ASD/ITD	A lookup table describing the codes in the "HGHT_CODE" field of the LARGEBUILD layer.	ASD/ITD	12/02/02	As Needed

FILE	Source	DESCRIPTION	Maintained By	Last Update	Maintena nce Schedule
Building.dbf				12/13/00	
Business.dbf				12/13/00	
Busowner.dbf				12/13/00	
Cityownedalias.dbf				11/4/98	
Govownedalias.dbf				4/6/99	
Hurricane.dbf				4/12/99	
Legals.dbf				12/13/00	
License.dbf				12/13/00	
Metroscan.dbf				4/21/99	
Metrosecs.dbf				4/21/99	
Municzone.dbf				5/4/98	
Neighborhood.dbf				12/19/00	
Policulu.dbf				5/12/00	

FILE	Source	DESCRIPTION	Maintained By	Last Update	Maintena nce Schedule
Property.dbf				12/13/00	
Sales.dbf				12/13/00	
Slucode.dbf				7/7/98	
Stateofficials.dbf				3/22/99	
UBS_Service_Descriptions.dbf				11/5/99	
Usecode.dbf				12/13/00	
Usecodeexempt.dbf				12/14/00	
Usecodenlu.dbf				7/16/98	
Zonecodelu.dbf				12/19/00	

There is a Subdirectory Called Census, which contains DBF files that link up with the CENSUSBG, CENSUSTR, ZIPCODE and TAZ GIS. The Census Directory is further broken down into CLARITAS and BCPLANNING.

1997CLARITAS DATA:

The City of Fort Lauderdale purchased the Claritas Level-II Solution Series of Retail Data that provide 1990 Census Data, 1997 Updates and 2002 Projections for all files. These files can be linked with their respective shapefiles by linking on the ClaritasID item.

Each file is a DBF file contains a matching ascii TXT counterpart that describes each field. **Refer to the TXT file using NOTEPAD, for a more detail explanation of each of these files.**

Content of GISDATA/TABLES/CENSUS/1997CLARITAS/BLOCKGROUP

RE2BCG01	Household, Population, Families, Income, & Ethnic Data
RE2BCG02	Detailed Income by Age
RE2BCG03	Households by Income
RE2BCG04	Households by Age, Detailed Population by Age
RE2BCG05	Detailed population by Age, Sex, Education
RE2BCG06	Employment, Population by Marital Status, Spanish Speakers, & Renter Occupancy
RE2BCG07	Businesses by Category & Employment
RE2BCG08	Average Household Expenditures on Products

Content of GISDATA/TABLES/CENSUS/1997CLARITAS/TRACT

SAME content as for Block Groups. Files are called RE2BCT01 – RE2BCT09.

Content of GISDATA/TABLES/CENSUS/1997CLARITAS/ZIPCODE

SAME content as for Block Groups. Files are called RE2BCZ01 – RE2BCZ09.

1998CLARITAS DATA:

The Claritas corporation provided the City of Fort Lauderdale with updates to the 1997 Level-II Solution Series of Retail Data that provide 1990 Census Data, 1998 Updates and 2003 Projections for all files. These files can be linked with their respective shapefiles by linking on the ClaritasID item. Each file is a DBF file contains a matching ascii TXT counterpart that describes each field. **Refer to the TXT file using NOTEPAD, for a more detail explanation of each of these files.**

Content of GISDATA/TABLES/CENSUS/1998CLARITAS/BLOCKGROUP

RE2SLG01	Household, Population, Families, Income, & Ethnic Data
RE2SLG02	Detailed Income by Age
RE2SLG03	Households by Income

RE2SLG04	Households by Age, Detailed Population by Age
RE2SLG05	Detailed population by Age, Sex, Education
RE2SLG06	Employment, Population by Marital Status, Spanish Speakers, & Renter Occupancy
RE2SLG07	Businesses by Category & Employment
RE2SLG08	Average Household Expenditures on Products

Content of GISDATA/TABLES/CENSUS/1998CLARITAS/TRACT

SAME content as for Block Groups. Files are called RE2SLT01 – RE2SLT09.

Content of GISDATA/TABLES/CENSUS/1998CLARITAS/ZIPCODE

SAME content as for Block Groups. Files are called RE2SLZ01 – RE2SLZ09.

BCPLANNING DATA:

Content of GISDATA/TABLES/CENSUS/BCPLANNING/BLOCKGROUP

DU_BG.DBF	1990 Census Dwelling Units, by Type, by Block Group
INCPOVBG.DBF	1990 Census Income and Poverty Characteristic, Census Block Group
INDUSTBG.DBF	1990 Census Resident Employment by Industry, by Block Group
JOB_BG.DBF	1990 Census Resident Employment by Occupation, by Block Group
OWN_BG.DBF	1990 Census Value of Specified Owner Occupied Units, by Block Group
POP_BG.DBF	1990 Census Population Characteristics, By Block Group
RENT_BG.DBF	1990 Census Rent for Specified Renter Occupied Units, by Block Group

Content of GISDATA/TABLES/CENSUS/BCPLANNING/TRACT

DU_CT.DBF	1990 Census Dwelling Units, by Type, by Census Tract
FC_DU_CT.DBF	Dwelling Unit Forecasts, 1995 - 2020, by Census Tract
FC_PP_CT.DBF	Population Forecasts, 1995 - 2020, by Census Tract
HUI_CT.DBF	Dwelling Units by Type (4/1/85, 4/1/90, 4/1/95, and 4/1/96) by Census Tract

INCPOVCT.DBF	1990 Census Income and Poverty Characteristic, Census Tract
INDUSTCT.DBF	1990 Census Resident Employment by Industry, by Census Tract
JOB_CT.DBF	1990 Census Resident Employment by Occupation, by Census Tract
OWN_CT.DBF	1990 Census Value of Specified Owner Occupied Units, by Census Tract
POP_CT.DBF	1990 Census Population Characteristics, by Census Tract
RENT_CT.DBF	1990 Census Rent for Specified Renter Occupied Units, by Census Tract

Content of GISDATA/TABLES/CENSUS/BCPLANNING/TAZ

DU_TAZ.DBF	1990 Census Dwelling Units, by Type, by Traffic Analysis Zone
FC_DU_TZ.DBF	Dwelling Unit Forecasts, 1995 - 2020, by Traffic Analysis Zone
FC_PP_TZ.DBF	Population Forecasts, 1995 - 2020, by Traffic Analysis Zone
HUI_TAZ.DBF	Dwelling Units by Type (4/1/85, 4/1/90, 4/1/95, and 4/1/96)by Traffic Analysis Zone
OWN_TAZ.DBF	1990 Census Value of Specified Owner Occupied Units, by Traffic Analysis Zone
POP_TAZ.DBF	1990 Census Population Characteristics, By Traffic Analysis Zone
RENT_TAZ.DBF	1990 Census rent for Specified Renter Occupied Units, by Traffic Analysis Zone

Section 6: Graphic Textfiles (TEXTFILE Directory)

The files contained in this directory provide ArcView users with an alternative way to annotate their Views without having to use ARC/INFO annotations. They include:

FILE	Source	DESCRIPTION	Maintained By	Last Update	Maintenance Schedule
Associations.odb		Neighborhood Association labels.	ASD/ITD	9/19/00	As Requested
Associations2.odb		Neighborhood Association labels.		10/24/00	
Blockno.odb		Block numbers.		12/30/97	
Censustracts.odb		Census tract labels.		12/31/97	
Citynames.odb		City names with Broward County.		12/31/97	
Majorstreetlg.odb		Major Street labels.		2/26/98	
Majorstreets.odb		Major Street labels.		2/26/98	
Statepark.odb		State Park labels.		12/31/97	
Supertaz.odb		Traffic analysis zones.		12/31/97	
Taz.odb		Traffic analysis zones.		12/31/00	

FILE	Source	DESCRIPTION	Maintained By	Last Update	Maintenance Schedule
Zipcodes.odb		Zipcodes		12/31/2000	As Needed
Zones.odb		Construction Services zoning labels.		10/26/2000	As Needed
Zoning_labels.od b		Construction Services zoning labels.		05/21/2001	As Needed

Field survey of existing conditions

Land use survey – Existing use

- (V) Vacant
- (R) Residential
- (C) Commercial
- (O) Office
- (I) Industrial
 - (CF) Community Facility
 - (P) Park
 - (RC) Mixed Use-Residential / Commercial
 - (RO) Mixed Use-Residential / Office
 - (OC) Mixed Use-Office / Commercial
 - (CI) Mixed Use-Commercial / Industrial

Number of Units

The number of dwelling units in a structure.

Rating system and criteria for structural conditions

(4) GOOD – No obvious maintenance or repairs necessary.

(3) FAIR – Minor maintenance or cosmetic repairs necessary. Needs paint, trim or other ornamental pieces need repair or replacement, etc.

(2) DETERIORATED – Major material replacement required, minor structural damage, but likely salvageable. Missing roofing material, leaning or broken porches, broken windows, awnings or siding, etc.

(1) DILAPIDATED – Missing basic construction materials and structural damage that is likely beyond repair.

Rating system for exterior conditions

Yard and landscaping (conditions)

(3) GOOD – Grass is mowed, site is well kept and generally free of trash.

(2) PARTIALLY KEPT – Grass is no longer than 8 inches high, small patches of dead grass or dirt, some trash is evident but could be cleaned in one hour or less.

- (1) UNATTENDED – Grass and weeds longer than 8 inches high, significant patches of dead grass and dirt, substantial amount of trash, abandoned vehicles, appliances, etc. on site.

- (0) DOES NOT EXIST - No yard or Landscaping

Sidewalks (conditions)

(2)GOOD – Clean, level, few cracks.

(1) NEEDS REPAIR – 3/4 inch or greater vertical separation, instability, and/or surface scaling of 25% or greater on a sidewalk flag.

(0) DOES NOT EXIST – No sidewalk.

Swales (conditions)

(PP) PERMEABLE / PITCHED – Grass, Gravel / Concave.

(PN) PERMEABLE/ NON-PITCHED – Grass, Gravel / Convex or Flat.

(N) NON PERMEABLE – Paved, Asphalt or Concrete

(0) DOES NOT EXIST – No swale.

*This document can be found in the GISData directory in [gisdata/layerlist/layerlist.doc](#)
